

## DISTRICT SCHOOL OFFICERS CONVE

Seventy-Five Presidents and Clerks of County Meet at Courthouse.

### PROBLEMS TAKEN UP

Talks on Sanitation and State Aid for Schools Made Yesterday.

More than seventy-five presidents and clerks of district school boards of the county met yesterday in the Circuit Court room of the Courthouse. George T. Porter, county superintendent of schools, was in charge. The meeting was held to comply with the school board convention law.

Enrollment at 9:30 o'clock which was followed by an open discussion on the selection of teachers. This discussion was under these heads:

The educational preparation that a teacher should possess; What besides a teacher's education should be considered by a school board in the selection of teachers? How determine whether a teacher is successful or not? Is it advisable to retain the same teacher from year to year? Why? May a successful teacher be retained too long in the same school? When and should a school board recommend a teacher to another board? Should general recommendations be given to teachers? Under what conditions should a school board raise the salary of the teacher? Free Textbooks.

The afternoon program consisting of talks by Dr. C. M. Sneed of Columbia who told of the lighting and ventilation for country schools and its effects on the students, and by Dr. Walter McNab Miller who told of the necessity of pure drinking water for the students. He also spoke on the prevention of tuberculosis.

The other talks on state aid for schools and the plans for improvement of physical conditions were dispensed with to allow Myron A. Waterman to talk on the Federal Loan Bank.

Dr. D. F. Luckey, state veterinarian, requested those present to report all cases of hog cholera in their districts.

### ARTICLES USED IN BULLETIN

Prof. C. G. Ross Writes on Australian Agricultural Schools.

A bulletin in the agricultural education series of the Australian government, just received in Columbia, contains a series of four articles by Prof. Charles G. Ross of the School of Journalism of the University, which appeared in the Melbourne Evening Herald on May 23, 24, 25 and 26. The title page of the bulletin states that Mr. Ross is a "member of the Journalism faculty of the University of Missouri, with which is connected the state agricultural college."

In an introductory paragraph the government announces that fees at the two agricultural colleges of Dookie and Lagerenong described by Mr. Ross are 25 pound (\$125) a year, covering instruction and maintenance.

### 2,200 BOYS IN CORN CLUB

State Association to Give Prizes For Highest Records.

The corn club—2,200 of them—are having a breathing spell after a summer of plowing, planting and cultivation. It has been a good corn year in most sections of the state and now the boys are awaiting harvest because harvest will determine in a large measure who will be entered in the contest at Columbia during Farmers' Week.

Four gold watches, three trophies, two medals, one diploma, and seventy cash prizes which range from \$25 to \$1, are offered to those boys who make the highest records. Most of these are offered by the Missouri State Corn Growers' Association and the Missouri Ruralist. These prizes will be awarded during Farmers' Week at the University of Missouri College of Agriculture. In some counties local contests will be held and local prizes will be awarded.

The commercial clubs of Chillicothe,

Mound City, Brunswick, and Lamar will pay the Farmers' Week expenses of the boy who makes the highest score in the respective counties.

The Agricultural Extension Service of the College of Agriculture furnished seed corn last spring to 500 of the club boys. The rest of the members furnished their own corn. Members are between the ages of ten and eighteen. The Extension Service has furnished monthly suggestions to the boys on seed selection, testing, seed-bed preparation, fertilizing, planting, cultivation and harvest.

Nodaway county has the largest enrollment, 168. Chariton county comes next with 154. Benton 76, Henry 75, Morgan 68.

### DRINK CANNED MILK NOW

Few Take Advantage of Municipal Sale in Kansas City.

By Associated Press

KANSAS CITY, Sept. 15.—Fewer than 100 persons took advantage of the city's sale of milk today, despite the shortage that has existed here for three days through refusal of the seven largest distributors to deliver their products without police protection from strikers. Distribution of the certified milk sold under the supervision of the food and dairy department of the city started at 3 o'clock and only twenty-six quarts were disposed of in the first half hour.

Some mothers brought their babies and doctors brought their physicians' certificates to prove their right to buy the city milk put on sale for the benefit of sick persons and babies.

Use of canned milk was given as the reason for few sales. Resumption of deliveries by the seven distributors will start tomorrow morning, according to announcement made today. The seven companies ordinarily serve 50,000 homes.

### Fire Endangers Ship's Passengers.

By Associated Press

A SOUTH AMERICAN ATLANTIC PORT, Sept. 15.—A British steamship of 7,600 tons gross bound from a North American port for South Africa put in here today with a fire in her coal bunker, endangering the lives of passengers and the crew. Among the fifty-one first cabin passengers are many American missionaries. All are safe.
